

California Proposition 65 - Clear and Reasonable Warning Policy & Notice to Distributors and Vendors

Officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, California Proposition 65 requires businesses to warn Californians when exposure to toxic chemicals known to the state may cause cancer, birth defects, or other reproductive harm, pursuant to California Health and Safety Code section 25249.5 seq. ("Proposition 65") and 27 CCR § 25600.2(b) (effective 30 August 2018).

The agency charged with administering Proposition 65 has promulgated new regulations governing these warnings, which go into effect on August 30, 2018. In addition to providing new "safe harbor" warning language for retail sales of products creating exposures to a listed chemical, the new regulations also explicitly require warnings to appear in catalogs and on e-commerce sites. These warnings must be "clear and reasonable," and must be provided to consumers in California prior to purchase.

G. F. Lasswell Co., Inc. does not manufacture any products. Our suppliers are required to meet all federal, state, and local laws, regulations and ordinances including California Proposition 65 chemical restrictions and limitations. G. F. Lasswell's expectation is that our Suppliers know what is in their product(s); disclose when a Prop 65 warning label is required, and execute accordingly including any KleenWell® branded product(s) as well.

G. F. Lasswell Co., Inc.'s website (<http://www.lasswell.com>) contains the online master product catalog and should be the final reference for product information versus printed and/or other electronic versions otherwise provided by G. F. Lasswell Co., Inc. This online catalog includes manufacturer provided product information and will be updated upon receipt of manufacturer literature revisions.

Due to the use of Proposition 65 Substances in some of the products we distribute, the following warning label examples will appear on applicable product(s), as directed by the manufacturer.

Warning Label Examples

There are two series of warning labels – long form and short form. The long form requires specifying one or more chemical. The short form simply requires the disclosure of the harm that might occur to a user.

One can use either set, but for our industry's needs, the short form should work best for most.

-  **Long form specifying cancer risk**
WARNING: This product can expose you to chemicals including [name of one or more chemicals], which is [are] known to the State of California to cause cancer.
For more information, go to www.P65Warnings.ca.gov
-  **Long form specifying the potential of birth defects or other reproductive harm**
WARNING: This product can expose you to chemicals including [name of one or more chemicals], which is [are] known to the State of California to cause birth defects or other reproductive harm. For more information, go to www.P65Warnings.ca.gov
-  **Short form specifying cancer risk**
WARNING: Cancer - www.P65Warnings.ca.gov
-  **Short form specifying the potential of reproductive harm**
WARNING: Reproductive harm - www.P65Warnings.ca.gov
