

SmartWasher®

BIOREMEDIATING parts washing system

NEVER HAUL AWAY DIRTY PARTS CLEANING FLUID AGAIN!

Now available thru Lasswell.
A unit is in our showroom for demonstration.

The SmartWasher® Bioremediating Parts Washing System is both self-cleaning and non-hazardous.

Through the process of bioremediation the SMARTWASHER constantly maintains the cleanliness of the OZZYJUICE cleaning/degreasing solution without the need for hauling, skimming or evacuating the unit.

WHAT IS OZZYJUICE®?

OZZYJUICE is a powerful, aqueous based degreasing solution that is pH-neutral, non-irritating, non-flammable, and non-toxic. Armed with superior cleaning capability, the OZZYJUICE solutions will match or surpass the performance of a premium solvent without all the associated risks. All OZZYJUICE solutions are certified by both NSF and AQMD.

OZZY® MICROBES KEEP THE OZZYJUICE CLEAN AND STRONG.

Microbes (OZZYS), introduced into the SMARTWASHER system through the OZZYMAT, eat the grease, oil and other contaminants, cleaning off the dirty parts, creating the harmless by-products of carbon dioxide and water.

CLEAN OZZYJUICE MEANS CLEAN PARTS.

The OZZYJUICE cleaning/degreasing solution cleans the dirty parts and the OZZY microbes clean the OZZYJUICE leaving it strong and clean for every use. You should never need to haul away dirty parts cleaning fluid again, if the unit is maintained properly, and according to the operating instructions.
